

WELLCAM

Wellcam Physician Training

Module 5

All material proprietary and confidential. Presented by Wellcam.

Module 5: Prescription Policies and Guidelines

1. Prescription Policy
2. Prescription Guidelines

All material proprietary and confidential. Presented by Wellcam.

Module 5: Prescription Policy

Give the patient instructions on how to use the medications prescribed, and document the advice.

Review the patient's medical history, past consults, and medications prior to giving advice or prescribing medications.

Inquire about past medical history (i.e. OTC use, prior medication reactions or allergies, prior peptic ulcer disease, pregnancy status) prior to prescribing medications or giving advice.

Prohibited Prescriptions

You are prohibited from prescribing the following:

- Medication for psychiatric illnesses
- Lifestyle medications
- Sexual dysfunction drugs
- Emergency situations (bleeding, heart attack, suicidal thinking)

Failure to follow this policy can and will lead to termination from Wellcam.

Module 5: Prescription Policy

Medication Name

| _____

Enter name of medication

Side Effects e.g. Redness, swelling etc.

All material proprietary and confidential. Presented by Wellcam.

Module 5: Prescription Policies and Guidelines

1. Prescription Policy
2. Prescription Guidelines

All material proprietary and confidential. Presented by Wellcam.

What NOT to do when sending a prescription:

- Prescribe medication or instruct the patient to take medication in a manner that is not FDA approved.
- Prescribe medications for lengthy periods that may require labs to confirm patient safety
- Prescribe high-risk medications, complex medication regimens that require close follow-up, or medications that may adversely interact with their medications or past allergies
- Take a chance and prescribe a medication when there is a history of an allergy to a similar medication
- Prescribe drugs for non-therapeutic purposes
